Description of Workcamp: Leg35 Montecatini Montecatini (Pt) Toscana 24.07 ¿ 07.08 ENVI
12vol (18+)

Project: Montecatini Terme is a touristic town near Pistoia famous for its Spas. It is located close to some of the most beautiful cultural sites of Tuscany (Florence, Lucca, Pisa) easily reachable by train or by bus in about 1 hour. It is worldwide known for its healing hot springs and Spas which date back to the beginning of the 20th century. The town lies on a 299 m. high hillside and it is connected to the top by the oldest cable railway of Europe. The cable runs through old olive trees, oleanders and ancient paths dating back to the Roman period. On the top of the hill stands a typical medieval evocative village, Montecatini Alto, where a lovely square is crowded with tourists during the summer time.

Work: In cooperation with C.A.I., Proloco Montecatini Alto and the Municipality of Montecatini Terme, volunteers will be involved in restoring, cleaning and signposting some old paths. Volunteers will also join a didactic project aimed at raising public awareness on environmental protection of local spots by posting historical and environmental signs along the paths.

Location: Montecatini Terme, Tuscany region.

Accommodation: Volunteers will be hosted in a school.

Language: English will be the official language of the work camp.

Terminal: Montecatini Terme is well connected to Pisa and Florence Airports by train.
