PROJECT: Montreuil-sur-Epte is a small village situated in the department of Val-d'Oise in the Regional Natural reserve of French Vexin. Country "of shadows and lights", Vexin is a place of tradition and the cradle of the impressionism, near Paris. Lovers of arts and culture are invited to come to follow the way of the impressionists who climbed towards the hills of Vexin on the Oise and Val-d'Oise before getting down again on the Seine towards Claude Monet's waterlilies... a real green breath near Paris.

HISTORY: French Vexin shelters a heritage outstandingly well preserved which survived for its major part the destructions of the Revolution and which justified the classification of the plateau in conformance with the classified sites. French Vexin indeed counts not less than 120 churches and 80 castles, partially or totally classified historic monuments.

WORK: It is in this context of culture and history that you will be welcomed in Montreuil-sur-Epte. You will be involved in an action of saving and valuation of the Church Saint-Denis. Your mission will consist in renewing the internal wall of the aisle (repointing in the mortar and plastering in "Roman style"). Work on scaffold.

LANGUAGE: English

LOCATION: 60 km from Paris

ACCOMMODATION: in tents

TERMINAL: Cergy Le Haut train station.

SPECIAL REQUIREMENT: SCAFFOLDING CERTIFICATE MANDATORY

SPECIAL REMARKS: Project in partnership with the organisation « Caritas France »: 8 volunteers from the Center "Paris Homeless" will work on this construction site. Motivation letter required.
