<b>Description of Workcamp:</b>	CONC 160	SEMUR-EN-VALLON	03/08 - 24/08
	RENO	18+	
	12 VOLS		

PROJECT: Semur-en-Vallon is a village of 500 inhabitants, in a country rich of history and natural heritage. The origin of the town goes back to the eleventh century and the village still has a restored church over the centuries and a twelfth century castle still inhabited.

Moreover, in the heart of a forested and marshy place, the atmosphere of old trains was reconstituted in a former train station with a "scenic railway".

In this dynamic of development of a local heritage, you will begin the restoration of the wall behind the town hall.

WORK: You will work on the restoration of the wall in a traditional way.

LOCATION: Located in the department of Sarthe, the town is situated 45 km in the east from Le Mans and 15 km from la Ferté Bernard.

ACOMMODATION: You will be accommodated in tents in a football stadium.

Sanitary facilities are situated in the changing rooms. If you have tent, you can take it. Please bring a sleeping-mat and a sleeping bag.

TERMINAL: Meeting-Point at the train station (Gare SNCF) in La Ferté Bernard.

SPECIAL REMARKS: You will participate in the activities of an organic farm like the harvest vegetables. Bring suitable shoes.
